

# Your carbon footprint travelling to and from Ladakh

In flying to and from Ladakh you have caused carbon dioxide (CO<sub>2</sub>) to be released into the atmosphere, which will affect our climate.

You can 'offset' your travel-related emissions by investing in emission reductions at the Druk Padma Karpo School in Ladakh.

If you invest in the independently-accredited solar energy system at the Druk Padma Karpo School in Shey, Ladakh, you will help to sustain the running of this clean-energy system.

Go to: [www.dwls.org/donate](http://www.dwls.org/donate) to pay your emissions offset. Thank you for your support.

The CO<sub>2</sub> emissions and offset costs given above are for a round trip and were produced by [climatecare.org/calculator](http://climatecare.org/calculator).
